

PowerMax Complete

Enjoy total peace of mind

The PowerMax Complete home security system provides the benchmark for the professional security industry.

When installed by a professional engineer it provides simple day to day operation and can be easily upgraded with additional security and home safety accessories.

The system is approved to EN5013-1 Grade 2 which is recognised by the police and insurance companies.

Everyday benefits of the PowerMax Complete:

Wireless technology

- Pioneering wireless technology links the control panel and all accessories.
- No wires - no mess, the system can be quickly and easily installed with minimal disruption to your home.
- The system can be easily upgraded in future if required.

Protecting your family

- Set your PowerMax to message you when your children arrive home.
- Portable panic and emergency buttons give you extra security whilst anywhere in the house or garden.
- Arm the system using the home set mode for added security at night.

Pet tolerant

- Allows your pets to move freely in all areas enabling you to protect rooms that could not be covered by standard sensors.
- Even animals up to 38Kg (85lb) can be covered by using a combination of optional accessories.

Monitoring

- Alarm signals can be sent directly to a 24 hour monitoring centre for guarding or police response for added protection.

Please note, this is an optional extra you may need to discuss with your installer.

Be connected

- PowerMax Complete will contact you with a voice call in the event of an emergency. An optional GSM module can be installed to send a SMS or voice call if you don't have a telephone line.

How the PowerMax Complete works in your home

Frequently Asked Questions

Q. How long does it take to install?

A. The PowerMax system is pre-configured away from your home and so can be installed in just a couple of hours.

Q. What do I need to use PowerMax Complete?

A. PowerMax is simple to use via a keyfob or a user code. You will be shown how to operate your new system day to day.

Q. Will there be any mess?

A. As the system is wireless there will be virtually no mess and no need to run wires around your home.

Q. What happens if I move home?

A. Your system can move home with you although it will need to be professionally installed in your new property. However, the system will also be an additional selling point if you decide to leave it behind or the new owner may wish to purchase it from you.

Q. What happens if I have an issue or question at a later date?

A. Your PowerMax installer will be able to help with any future problems which may arise. Ask your installer for details of their service contract which will ensure your system is maintained properly and provides years of protection.

Q. What if I go on holiday?

A. Simply arm the system when you leave your home. In the event of an incident up to four telephone numbers can be notified. You can also check the status of your system remotely and control it. If friends or neighbours need to enter your home leave them a keyfob or code and show them how to use the system.

Q. Why choose Visonic?

A. Visonic are a global leader in the commercial and domestic security sector and are recognised as a brand delivering quality products and solutions.
